

OLENE S. WALKER
Governor
GAYLE F. McKEACHNIE
Lieutenant Governor

State of Utah

DEPARTMENT OF NATURAL RESOURCES Division of Water Rights

ROBERT L. MORGAN
Executive Director

JERRY D. OLDS
State Engineer/Division Director

July 7, 2004

Notice to Water Users and Interested Parties:

Recently completed studies on the Northeast Boundary Plume at the Tooele Army Depot have been completed. The Northeast Boundary Plume is a body of ground water on the northeast corner of the Tooele Army Depot that has been contaminated by trichloroethylene. On March 15, 2004, the Department of the Army, Tooele Army Depot (Army) requested the State Engineer modify his ground-water policy in this area to restrict aquifer development. The purpose of the request is to allow the Army to complete an on-going ground-water contamination characterization study that will lead to a final remediation decision.

The State Engineer has scheduled a public meeting to review the data presented in the studies with water users and receive comments regarding a proposed modification to his ground-water policy. This meeting is scheduled for July 7, 2004 at 1:30 PM in the Room ENS of the Utah State University-Tooele Campus, 1021 West Vine Street, Tooele, Utah. Personnel from the Tooele Army Depot and the Division of Water Rights will make presentations.

Your participation is greatly appreciated.

Sincerely,

Jerry D. Olds, P.E.
State Engineer

In accordance with the Americans with Disability Act, individuals needing special accommodations should notify Gail Nelson at the address in the letterhead at least three (3) days prior to the meeting.
